

April 30, 2010

Attention Advantage Members,

I'm excited to be writing to you to inform you that we have found the **best rewards program** in the industry and have **already made** it available to you as of April 1, 2010. That's right, if you have used your Debit MasterCard in April, you already have earned points. It gets even better. Starting in July 2010 you will also earn rewards points when you use your Visa Platinum Card. The points will be pooled at your membership account level for faster redemption.

By using your Debit MasterCard now and in July 2010 your Visa Platinum Card, you will earn Advantage Credit Union points by shopping at local and online retailers that you already shop at. Plus, you'll earn additional points when you shop at retailers participating in the program.

Want to save even more money? Pay your bills with your Debit MasterCard or Visa Platinum Card and eliminate the costs of checks and stamps.

Don't have a Debit MasterCard and/or Visa Platinum Card? Stop in and request yours today.

You can redeem your points on over 5 million items that Amazon.com offers. Not your thing? How about travel experiences, activities, event tickets, merchant gift cards, or more!

I urge you to go to www.Advantage4.org and choose the UChoose link to view your points and begin to take advantage of additional savings.

Sincerely,

Robert L. Grove, Jr.
CEO
