

Cavion Mobile Banking Professional

Mobile banking has progressed from a trendy offering to a necessity in today's competitive marketplace. Harland Financial Solutions offers Mobile Banking Professional as an integrated component of Internet banking. The tight integration provides your financial institution the ability to define the specific features that are available to mobile users.

Feature Overview:

- Use a cell phone, smart phone, pocket pc or other WML (Wireless Markup Language) compatible device
- No separate software or hardware is required
- Multi-factor authentication is included in mobile Internet banking
- Flexible risk containment options for the FI

Step 1. Navigate to the mobile Internet banking site

Step 2. Log into your account with multi-factor authentication

Step 3. Choose an action

Step 4. Transfer Funds, Check Balances, Bill Pay, etc.
