

Pacific Transportation Federal Credit Union (PTFCU) offers Shared Branch access to our members! There are over 2,500 locations and some are open on Saturday and Sunday! For a complete listing of locations and hours of operation, call toll free 888.CUSWIRL (287-9475) or access the following websites for location information:

[www.cuservicecenter.org](http://www.cuservicecenter.org) or [www.servicecenters.org](http://www.servicecenters.org)

PTFCU has joined together with other credit unions in a cooperative effort to bring our members a new choice in financial convenience, "The CU Service Centers® Network." Our members can now perform many of their financial transactions and obtain services at branches of other credit unions belonging to the network. We are a Shared Branch Issuer. This means that we are a credit union that provides its members with access to shared branch network locations at other credit unions.

By using the CU Service Centers® Network, PTFCU members may access their accounts and conduct business with PTFCU through any of the convenient CU Service Centers® locations.

- Cost
  - No cost to our members
