

CardValet®

Your Card, On Your Terms!

Manage your debit card with your Smartphone

CardValet helps reduce fraud by allowing you to monitor your account with your smartphone and control how, when, and where the debit card is used.

A lost or stolen card is just one area of concern in today's world where identity theft is an unfortunate reality. Turning your debit card "on" or "off", when you are not using it, is one of CardValet's safeguards against fraud.

When your card is "off" no withdrawals or purchases will be approved until you turn the card back "on" by using the App on your Smartphone. Transaction controls add another layer of protection by allowing your debit card to work only in specific locations or geographic areas. Plus, real-time alerts keep you informed when your card is used.

"CardValet is ideal for users who want to actively manage their cards. We are excited to offer this tool to our members. Not only is CardValet user friendly and convenient, but it will aid in our continued efforts to prevent fraud and identity theft for our cardholder," said Genia Gassaway, Autotruck's VP Member Service.

CardValet Lets You:

- Turn your debit card "on" and "off" by using the App on your Smartphone
- Establish transaction controls for dollar limits, merchant categories and geographic locations
- Receive alerts when your debit card is used, approved or exceeds the transaction controls set by you.
- Stay informed of potential fraud with alerts on attempted or declined transactions
- Get real-time balances for your accounts anytime 24/7

Download The CardValet App Today

It's easy to get started. Just download the CardValet App from the Apple Store or Google Play and customize usage settings and alert preferences.

Call our office at (502) 459-8981 or (800) 459-2328 with any questions.
