

## **AUTOMATED CALL SCAM BULLETIN**

Several members have called in stating that they had received an automated call to notify them that their "Hughes" card had been blocked. They are instructed to input their card number to reactivate the card. The call numbers on the caller ID are not the same on these calls.

This is a fraud scam. Hughes Federal Credit Union does not send out automated calls to inform a member that their card has been blocked. If you think you might be a victim of fraud, please contact us at (520) 794-8341.
