What is a credit union?

A credit union is a cooperative financial institution, owned and controlled by the credit union members. Credit unions are not-for-profit, and exist to provide a safe, convenient place for members to save money and get loans at reasonable rates. We are here just for our members to deliver convenient low cost lending and savings products with personalized attention you won't get at any bank.

How do we establish a Bronco Family Account?

Not just anyone can become a member of Cal Poly Federal Credit Union. We can only extend our services to a selected few: students, faculty, staff, and alumni of the University and their family members.

We would establish an account for your student (savings & checking) and open a savings & checking for you. We could link your account to your student's to allow you to initiate transfers into your student's account through our on-line banking. Sending money to your son/daughter is convenient and available to you 24/7. We can also set-up a FREE automatic monthly transfer from your account at another financial institution into your student's account.
