GUARD YOUR CARD!

Debit card theft and fraud are on the rise in these economic times. A stolen card could possibly give a thief access to your checking and savings accounts. In fact, you should treat your debit card as if it is cash. It is becoming more important than ever to protect your debit card and your PIN. Here are some steps you should take to secure your card and your funds:

- **NEVER** write your PIN on your debit card.
- If you do not plan on using your card, leave it at home.
- **Be alert** to ATMs that appear to have been altered; they could be rigged to “skim” your PIN and other personal information.
- **Prevent** others from viewing the keypad as you enter your PIN.
- **Inform** PSCU when your contact information changes. We offer constant fraud monitoring and will try to reach you by phone to confirm transactions that trigger an alert.

USERS:** If you're planning to use your debit card when you travel, be sure you know your PIN, and your limits. Both can be verified with a call to PSCU. Travel purchases can sometimes trigger fraud alerts which may cause inconvenience to you. Be sure we have current phone numbers so that we can contact you.
