Our new Mastercard's have a chip that can have a PIN number. When you receive your new chipped Mastercard and if you would like a PIN call 1-888-891-2435.

Make sure you call from the phone number that is on file with the credit union for that card and have the primary card holder information. Why use a PIN? It is more secure and if you travel overseas you will need a PIN. Please remember when traveling with either your Mastercard or your Debit Card to put a travel notice on your card. Make sure to give us an updated phone number so we can contact you if there is problems while you are gone. Thank you.

ATM WARNING

We have received a letter from the Sioux City Police Department on ATM skimmers. The Skimmers are a plastic device that is affixed on the card reader section of the ATM. They will also affix a camera above the digital pad to collect the consumer's PIN number. These are both disguised to look like a part of the ATM machine. They are very hard to detect. Please be aware of the machine you are using.

Before you insert your card make sure there is nothing on the card reader. Also check above the Pin pad that there is nothing there that should not be there. Two minutes of your time can save you a lot of fraud. If you think there is something on our ATM machines and we are closed please call the police department. Thank you.
